Work Experience

CACTUS FABRIC HUT Period: 01-03-2019 to 29-02-2020
Near YWCA Ladies Hostel Designation: WEBSITE ADMIN
MC Road Kottayam

Responsibilities

- **Manage Website Infrastructure** : Must set up a web host, configure access for users, establish news and mail servers, and seamlessly connect databases and other back-end components. Responsible for familiarizing clients with the website and making sure it functions smoothly.
- **Monitor Performance** : constantly evaluate website performance by checking metrics such as loading time and memory consumption. Going beyond the technical aspects, they also assess user feedback, effectiveness, and traffic, even exploring marketing techniques such as newsletters and SEO to draw more users into the website.
- **Provide Technical Support** :Websites require constant maintenance after setup. No matter how robust a site is, it's never a one-time job, and must be proactive when addressing user concerns and resolving bugs. Additionally, upgrades and improvements are inevitable in the fast-paced world of tech, so it's up to web admins to integrate these advances.
- **Evaluate Structure and Content** : To set basic standards for both graphics and content, checking for quality before uploading components. To manipulate, crop, resize, and correct color on digital photos
